Trays

The Idas Group started here over twenty one years ago. When we looked at the meat industry we saw there was an unresolved packaging issue, how to stop the sharp bone from piercing the barrier bag used to export our meat cuts around the world.

Working with the industry we developed our own solution being bone guard trays. Machinery to produce these trays was not available so we just went out and made our own.

Innovation is a key driver here, every product you see here in this section of the catalogue has been developed jointly with you the client to meet a specific product need.

Want to know how to extend the shelf life of your product? Again please ask us, we can assist not only with the tray but also a selection of barrier/non barrier top webs as well.

Have a great idea for a tray but would like to see a prototype? No problem, we have our own tool makers on site here at Idas.

We can make up a prototype for you at a price that is often less than the price of a one way Christchurch-Auckland flight.

Disposables

A standard set of disposables? I don't think so!

Everything we sell here as a disposable product is absolutely tailored to the food industry in New Zealand.

Did you know that with the likes of our Nitrile Gloves we went to China and had moulds made to fit the size of the New Zealand hand?

Did you know the New Zealand hand size is different to other countries? We did, we checked.

The powder inside the gloves, it's a corn starch, its GE free, we know, we checked.

Smocks, we now make our own and we make them in a larger size to better suit the New Zealand conditions. We are bigger than the Chinese, we didn't have to check.

Do you know where your current disposable products come from? We do, each and every supplier is physically visited at least annually to ensure they are staying with in our supplier standards.

Confident in your supply chain? You should be, we average a four month stock holding to ensure you get product when you want it.

A standard set of disposables I don't think so!

LATEX GLOVES

IDL NPE, S, M, L, XL [lightly powdered]
DL NUE, S, M, L, XL [powder free]

FDA Title 21 approved for use in medical and food preparation
AQL examination Grade quality gloves
Available in Lightly Powdered or Powder free
Powder used is Cornstarch certified free from GE material
Excellent strength and dexterity
Low protein levels

OB-W

White CPE Overboot with elastic top and extra mid tie
Double layered sole for extra strength
Calf Height protection
Packed in polybags of one pair each
Purchase Unit – 1 Outer of 300 pairs

GENERAL PURPOSE - EARLOOP

SFM-LB, G, P

Protective 3-Ply construction
Fluid Resistant
99% BFE (Bacterial Filtration Efficiency)
Soft Earloop option
Colours Available: Blue, Green and Pink
Purchase Unit – 1 Outer of 1000 masks (20 x 50 dispenser boxes)

GENERAL PURPOSE - TIE ON

SFM-TB, G

Protective 3-Ply construction
Fluid Resistant
99% BFE (Bacterial Filtration Efficiency)
Traditional Tie on option
Colours Available: Blue and Green
Purchase Unit – 1 Outer of 1000 masks (20 x 50 dispenser boxes)

N95 FFP2 WITH VALVE

SFM-N95

Valved Particulate Respirator Mask
P2 rated
Purchase Unit – 1 Outer of 240 masks (20 x 12 packs)

GENERAL PURPOSE

WGP34-W

General Purpose Wipes in sheets of 34cm x 32cm.
 Packed in handy dispenser boxes of 100 wipes each.
 Handy, inexpensive and low linting
 100% Biodegradable
 Purchase Unit - 1 outer of 12 x 100 Dispenser Boxes

ALL PURPOSE - ANTIBACTERIAL TREATED

WAP60-R, G, B (60cm x 45cm sheet)
 WAP53R-B (65M roll)

Available in Large Sheet or Roll option
 42 gsm strong, low linting non woven material
 Antibacterial Treated for longer life and reduced cross contamination
 Sheets come in Red, Green and Blue
 Purchase Unit - 1 Outer of 100 Sheets
 1 Outer of 6 x 65m Rolls

HEAVY DUTY WORKING WIPES

WHD60-R, B (60cm x 30cm sheets)
 WHD53R-G, B (45m perforated roll - antibacterial treated)

Heavy Duty wipes for extra absorbency and tough performance
 65 gsm high strength, high absorbency non woven material
 Antibacterial option (rolls only) for longer life and reduced cross contamination
 Sheets come in red or blue and rolls come in green or blue
 Purchase Unit - 1 Outer of 14 polybags of 25 sheets - 350 sheets total
 1 Outer of 6 x 45m Rolls

TURBOWIPES

WM34-W

Extra strength Polypropylene Wipes of 34cm x 30cm
 Especially designed for workshop and industry use
 Packed in handy dispenser boxes of 200 wipes each.
 Handy, inexpensive and low linting
 Purchase Unit - 1 outer of 6 x 200 Dispenser Boxes

GREEN SCOUR PAD

SC-PAD

Hard wearing green scouring pads
Purchase Unit – 1 Outer of 100 pieces

FINGER MESH SUPPORT

FM W, B

Glove supports for chain mesh gloves
Made from TPU material with excellent
memory. White, Blue, Green, Red, Yellow
Purchase Unit – 1 bag of 100 pieces

CAR SEAT COVER

LDPE CSC

Lightweight PE plastic car seat covers to protect car upholstery
Allows fast and easy clean up.
Packed in handy dispenser boxes of 100 covers each
One size fits all
Purchase Unit – 1 Outer of 400 covers (4 x 100 packs)

PRODUCT DISPENSERS

Disp-WM/WGP

Wipes dispenser for Defender General Purpose and Turbo Wipes (holds 1 inner box)

Disp-Car

Car Seat Cover dispenser (holds 1 inner box)

Flexible Films and Bags

Idas first entered the flexible packaging arena through its subsidiary Polidas. Polidas was originally set up for in house production of films to be used internally for further processing into the meat industry.

Since these early days Idas has grown this flexible packaging business into a vibrant and respected supplier of plain films and bags to a variety of external end users.

We are very specific in what we produce and the position we have and will grow in the market place.

The Idas Group wants to be the preferred supplier of plain poly bags and film in the New Zealand market place.

We will do this by continually reviewing in consultation with our clients our stock range of products.

This will be done to ensure we are supplying you with the products you want not just what we can produce.

Investments have been made to improve our efficiency in bag production leading to reduced lead times.

If you have a specific product you would like made please contact us now and we will take care of all the technical specifications required to produce for you the product you actually want.

SBB08	550 x 460 x 800 / 60mu Header Blocked Blue Tint	500	Per Carton

Idas Netting

We produce our own netting from our own manufacturing facilities at Idas Pty Melbourne where we supply the meat industry with specialised netting and stuffing machines.

MLR is a joint development from Idas Netting.

It was developed to overcome the problem of “pinging” when elastic net was being removed from a joint before carving. Idas research shows that during cooking the meat contracts by about 2%. Normal net contracts by approximately 50%.

Idas have developed a net manufactured from rubber that partially loses its memory during the cooking process. This means that by the time the meat has finished cooking the inward pressure will be significantly reduced, making it easier to remove, without “pinging”.

Also there is less pressure on the meat towards the end of cooking, less juice is squeezed out and the meat is constantly more succulent.

- Increase Yields
- Reduce Product Damage
- Reduce Labour Costs
- Make Net Removal Easier

Idas has also available manual and automatic stuffers as a stock product. Idas has in 2007 reinvented its popular double stuffer to incorporate a replacement of the old style electrics with new pneumatics along with improved technology in the finger area.

STANDARD 100M ROLLS

CODE	DESCRIPTION	SIZE	ROLLS PER CARTON

NE12422MLRX	180 Roast Red MLR	18	9

Pallets

Paper Pallets are the way of the future; this is where food manufactures will go both for legislative and environmental reasons.

The key elements of the Paper Pallet are two fold

- a one trip pallet must have a one trip price
- it must be strong enough to handle the long distribution chain we have in NZ for both internal transportation and also to reach our export markets.

Our current position is we are able and do produce client specific pallets that meet the above criteria but only within specific boundaries.

We have a stock product now that some would call fit for purpose. Fit for purpose is not an acceptable benchmark for Idas.

In consultation with our business partner we are developing a pallet for the New Zealand market place.

Building a new product for the future takes time. Your patience will be rewarded.
